THE COMPANY SUPPORTING YOU

Power Farming has been the proud distributor of Kioti (originally badged as Daedong) tractors since the year 2000, developing a solid national dealer network of over 24 dealers for this product range.

POWER FARMING - AS A WHOLE

Power Farming Wholesale Limited is a fully independent and privately owned group of companies with a three-generation history of serving the New Zealand and Australian tractor and machinery markets.

Having grown to become a major enterprise the Power Farming Group has an annual turnover of approximately NZ\$350m and employs around 350 people.

The various markets are served from strategically located distribution hubs in Morrinsville, Christchurch, Brisbane, Sydney, and Melbourne.

Power Farming Wholesale Limited also owns a substantial part of its New Zealand dealer network, together with a specialised engineering operation based in Palmerston North, New Zealand.

POWER FARMING IS COMMITTED TO PROVIDING QUALITY SERVICE BACKUP FOR EVERY ONE OF ITS PRODUCTS.

Conducted by factory-trained instructors, all our dealers undertake regular service and warranty training. This training ensures dealers are able to provide quick, accurate diagnosis and timely repairs for customers.

All the equipment we sell is backed up by a 24/7 parts wholesale operation that can access product from warehouses located across both sides of the Tasman.

With over 60,000 line items electronically linked and spread across the Australasian warehouses, we ensure our dealer network receive a speedy supply of parts.

Power Farming Wholesale handles all warranty claims for tractors and machinery and has worked hard to expand warranty and service guarantees.

This reinforces Power Farming's commitment to keep you up and running!
